Number	Kind	Lan	Pg	Dwg	Filing Notes

Alerting Abstract ...includes a list of members associated with a group name. The rules database associates the **group** name with a single **security   policy** . INDEPENDENT CLAIMS are also included for the following ...

...ADVANTAGE - The **method** associates the tunnel with the **group** such that one copy of the tunnel definition and associated **security** policy is maintained on the server node regardless of the number of client nodes, thus...

Class Codes
International Classification (Main): **H04L-009/00**

Original Publication Data by Authority

Original Abstracts:
...The group database in the server node comprises the group name and a list of **members** associated with the **group** name. The method further comprises configuring a rules database in the server node. The rules database associates the **group** name with a particular **security   policy** . The method further comprises configuring a tunnel definition database in the server node. In the...

...defined as the group name. In another embodiment of the present invention, the list of **members** associated with the **group** name comprises a non-contiguous list of ID types. In another embodiment of the present invention, the **members** associated with the **group** name are identified by any specified name.
Claims:
...name; configuring a rules database in said server node, wherein said rules database associates said **group** name with a particular **security policy** , wherein said server node has a single **security** policy for each of the plurality of tunnels associated with said group name; establishing a ...

...between a client node having a member name and said server node by negotiating a **common   security   policy** ; and associating said tunnel with a group in said group database based on said member...

**Conduction method of electronic commerce transaction, involves creating
aggregate** privacy **policy for each collaborative transaction, based on**
privacy **-use information from each participant in each collaborative group**

Original Titles:
Method, system, and computer program product for identifying and
implementing collected **privacy** policies as aggregate **privacy** policies
in electronic transactions
Inventor: **KUEHR-MCLAREN D G ...**

... POWERS C S ...

... PRESLER-MARSHALL M ...

... SHORIAK T ...

... WALCZYK J H
...NOVELTY - The **privacy** -use information is obtained for each participant, and the collaborative groups of two or more participants who are presenting a collaborative transaction to the electronic marketplace, is identified. An aggregate **privacy** policy is created for each collaborative transaction, based on **privacy** -use information from each participant in each collaborative group, and is presented to electronic marketplace.

Class Codes
International Classification (Main): **G06F-017/60**

   Abstract: Regulations and consumer backlash force many organizations to re-evaluate the way they manage **private data** . As a first step, they publish **privacy** promises as text or P3P. These promises are not backed up by **privacy** technology that enforces the promises throughout the enterprise. **Privacy** tools cover fractions of the problem while leaving the main challenge unanswered. This article describes a new **approach** towards enterprisewide enforcement of the **privacy** promises. Its core is a new framework for managing collected **personal data** in a sensitive, trustworthy way. The framework enables enterprises to publish clear **privacy** promises, to collect and manage user **preferences** and consent, and to enforce the **privacy** promises throughout the enterprise. This article shows how this new **approach** extends the traditional view of access control to provide a more complete coverage of **privacy** management issues.

...SPECIFICATION A feature of VDE provided by the present invention is that certain one or more **methods** can be specified as required in order for a VDE installation and/or user to...672 or other telecommunications links. Different electronic appliances 600 may interoperate even if they use **different** CPUs and different instances of ROS 602, so long as they typically use **compatible** communication **protocols** and/or **security methods** . In this example, I/O controller 660 permits CPU 654 and SPU 500 to read...

Bielen, Richard P;
NFPA Journal v. 95 no4 (July/Aug. 2001) p. 48-9
DOCUMENT TYPE: Feature Article ISSN: 1054-8793

...ABSTRACT: collecting and reviewing supporting materials. The standard
will cover installations, testing, and maintenance of physical **security**
systems. It will also address fundamentals such as **common** system
requirements and power supplies. The Standards Council and the task
group members have already agreed on the scope, development method, and

proposed form of the new standard.

...   developers how to configure their sites for P3P compliance. Cranor,
who is chair of the **Platform** for **Privacy Preferences** Project (**P3P**)
Specification Working **Group** at the World Wide Web Consortium and
coauthor of the **P3P** 1.0 specification, explains the inner workings of
the **P3P** protocol while maintaining a hands-on implementation approach.
     The book begins with an introduction to **P3P** and an overview of
online privacy concerns and the laws governing online privacy. Cranor
discusses...

...encryption tools, filters, and identity management tools. Cranor then
explains the inner workings of the **P3P** protocol and shows web developers
how to configure their sites for **P3P** compliance. The book gives
step-by-step instructions for creating a **P3P** policy, compact policy, and
policy reference file. The book then shifts to show software developers
how to build **P3P** compliance into their products, with a chapter on PPEL,
the W3C-developed specification for declaring user preferences, and a
chapter devoted to guidelines for developing user interfaces for **P3P**
user agents.
     "This book was written for a broad audience," Cranor says. "I have
tried...

    To quell some of the consumer privacy concerns now tied to
e-commerce, a **group** of high-profile **vendors** gathered in New York
Wednesday to test a new browser standard designed to filter through Web
site privacy policies.
    Dubbed **P3P** , for the **Platform** for **Privacy   Preferences** , the new
 standard was developed as a **common** way to let consumers browse Web
sites without concerns over whether information is being collected...

...information will be used.
    Microsoft used the event to debut its decision to incorporate the
P3P standard in its next version of Windows, due out next year. Microsoft
has code-named...
